PROFESSIONAL SUMMARY

Full Stack Engineer and mission-driven technologist with 3+ years building production-grade web applications at **Banyan Labs** and **Persevere** — a national non-profit empowering justice-involved individuals through technology careers. Currently contributing to **JONA** (Job Opportunity and Next Step Actions AI-powered workforce intelligence) and **NEXARA** banyan labs Agentic Engineering Onboarding Portal(OJT justice involved development) and **COMPASS** (trauma-informed transitional housing platform) — enterprise products built on Next.js 16, TypeScript, PostgreSQL, Firebase, and AI/RAG pipelines. U.S. Coast Guard veteran. Certified Peer Recovery Specialist. Instructor to the next generation of developers — including incarcerated students. I don't just build software; I build systems that restore dignity and expand opportunity.

TECHNICAL SKILLS

Frontend	React.js, Next.js (v15–16), TypeScript, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+), Redux Toolkit, shadcn/ui
Backend	Node.js, Express.js, REST API Design, Python, Zod validation, react-hook-form
Databases	PostgreSQL, MongoDB / Mongoose, Supabase, Firebase / Firestore, Firebase Admin SDK
Cloud & DevOps	AWS (EC2, S3, RDS, Lambda, CloudFront, Route 53), Docker, CI/CD (GitHub Actions), Vercel, Netlify
AI & Automation	RAG Pipelines, LLM Integration, n8n Intelligent Automation, Vector Database Architecture
Tools	Git / GitHub, Postman, Figma, Jira, Confluence, jsPDF / pdf-lib, @hello-pangea/dnd
Soft Skills	Agile Methodology, Technical Mentorship, Client Communication, Requirements Gathering, UAT Support

PROFESSIONAL EXPERIENCE

Junior Full Stack Software Engineer

Oct 2025 – Present

Banyan Labs (via Persevere) • Remote

- ▶ Build and maintain features across two enterprise products: JONA (AI-powered career matching, 0–100 job fit scoring) and COMPASS (trauma-informed transitional housing ecosystem).
- ▶ Contribute to the Banyan Labs Onboarding Portal (Next.js 16, React 19, Firebase, TypeScript) — implementing UI/UX optimization, drag-and-drop workflows, Zod-validated multi-step forms, and PDF generation pipelines.
- ▶ Participate in Agile ceremonies, sprint planning, and code reviews; collaborate with senior engineers to translate stakeholder requirements into production-ready features.
- ▶ Work across staging and production environments with dual-environment CI/CD deployment workflows.
- ▶ Stack: Next.js, TypeScript, PostgreSQL, Supabase, Firebase, Tailwind CSS, Docker, n8n automation.

Full Stack MERN Instructor Assistant

Jan 2025 – Present

Persevere Community • Memphis, TN

- ▶ Mentor students in Cohorts 14 & 16 and incarcerated student programs through the full MERN stack curriculum.
- ▶ Lead hands-on debugging sessions, code reviews, and project guidance; prepare instructional resources and grade assignments.

- Translate complex technical concepts into accessible language for learners entering tech from non-traditional backgrounds.
- Witness firsthand how technology education transforms lives — and carry that weight into every line of code written.

Full Stack MERN Developer & Peer Facilitator

Jan 2023 – Present

Persevere Community • Memphis, TN

- Developed full-stack applications using MongoDB, Express.js, React.js, and Node.js.
- Published create-murphy-backend — an npm package for rapid Express + Mongoose backend scaffolding adopted by peers.
- Built wealthMap (cash flow budgeting app), TodoApp (Next.js + Supabase), and other production-grade portfolio projects.
- Mentored fellow developers in responsive design, JavaScript, and career readiness.

Certified Peer Recovery Specialist (CPRS)

Jan 2022 – Present

Persevere / TN Dept. of Mental Health & Substance Abuse • Memphis, TN

- Provide peer-to-peer coaching, mentoring, and recovery support to justice-involved individuals.
- Apply real-world understanding of correctional workflows and human rehabilitation systems — directly informing the COMPASS platform design.
- Facilitate workshops, group discussions, and wellness + career readiness programming.

Machinery Technician (MK)

Apr 2008 – Sep 2012

United States Coast Guard • Boston, MA

- Honorably discharged with Secret Security Clearance.
- Received 3 Letters of Commendation from the USCG Commandant for outstanding performance.
- Operated in high-stakes, regulation-driven environments requiring precision, documentation, and team coordination.
- Served in homeland security and maritime safety operations — built the discipline that drives every project today.

KEY PROJECTS

JONA	AI-powered workforce intelligence platform. Scores job opportunities 0–100 against participant skills, certifications, and goals. Stack: Next.js, TypeScript, AI/RAG. Demo: jona.careers
COMPASS	Trauma-informed transitional housing OS. Mutual accountability, predictive risk alerts, real-time coaching. Stack: Next.js, Supabase, PostgreSQL.
Onboarding Portal	Banyan Labs OJT application & referral system. UI/UX optimization, drag-and-drop, PDF generation, Zod forms. Stack: Next.js 16, React 19, Firebase, TypeScript.
create-murphy-backend	Published npm package — Express + Mongoose backend scaffolding in seconds. npmjs.com/package/create-murphy-backend

CERTIFICATIONS

AWS Solutions Architect – Associate	<i>In Progress</i>
CIW JavaScript Specialist	<i>In Progress</i>
Certified Peer Recovery Specialist (CPRS)	<i>TN Dept. of Mental Health</i>
Full Stack Developer – freeCodeCamp	<i>Completed Aug 2024</i>
Responsive Web Design – freeCodeCamp	<i>Completed Jul 2023</i>
JavaScript Algorithms & Data Structures – freeCodeCamp	<i>Completed Aug 2023</i>
Front-End Libraries – freeCodeCamp	<i>Completed Jul 2023</i>

EDUCATION & TRAINING

MERN Full Stack Web Development

2023

Persevere Code Camp — Memphis, TN

Career Exploration, Personal Finance & Work-Based Learning

2022

Mark Luttrell Transition Center — Memphis, TN

WHAT SETS ME APART

I am a veteran, a recovery specialist, a coder, and a teacher. I have built software in the same buildings where people were rebuilding their lives. I understand what it means to write code that matters — not just code that runs. Every project I touch is informed by a depth of human experience that no bootcamp can replicate. I bring technical skill, emotional intelligence, and an unshakeable work ethic to every team I join.
